# Mission, Vision & Values

## Mission

Champlain Regional College is a public, English-language, post-secondary institution that provides pre-university and technical college-level education and training, primarily in English, to learners in both Regular Day and Continuing Education programs. The College, through its unique multiregional structure, responds to the needs of diverse linguistic and cultural communities and contributes to the educational and socio-economic development of the regions of Quebec served by Champlain College Lennoxville, Champlain College Saint-Lambert and Champlain–St. Lawrence College. The College is dedicated to fostering the individual success of its students and their development as well-rounded, responsible and informed citizens of the world.

## Vision

Passionate in its commitment to students, and inspired by its mission and values, Champlain Regional College aspires to

- Offer unique and innovative high-quality programs and services;
- Graduate students who are recognized for the excellence of the knowledge and skills they have acquired;
- Attract and retain outstanding faculty and staff; and
- Be a learning-centred college.

## Values

The College values

LIFELONG LEARNING for students, faculty and staff through personal growth and professional development;

EXCELLENCE through striving for continuous improvement;

RESPECT for all individuals, manifested through open communications and a commitment to fairness, justice and honesty;

CARING through compassion, courtesy and friendliness and a commitment to the wellness of students, faculty and staff;

COLLABORATION in the achievement of shared goals and objectives;

STEWARDSHIP through the responsible and effective use of human, physical, environmental and financial resources; and

A SENSE OF COMMUNITY AND TRADITION within and among all locations of the College.

# About the College

Champlain College Saint-Lambert is a constituent of Champlain Regional College, located on the South Shore of Montreal within a short 10-minute walk from the Longueuil-Université de Sherbrooke Métro station. The constituent College offers both pre-university and technical DEC programs through the regular division as well as attestation of studies (AEC), recognition of acquired competencies courses (RAC), and non-credit courses and activities through the Continuing Education Department. There are approximately 3,000 students enrolled at Saint-Lambert.

Saint-Lambert students come from diverse cultural backgrounds and speak various languages, which provides the constituent College with a friendly, enriching, and multicultural environment where students meet new people and live new experiences. At Saint-Lambert, we believe our size is our strength. Teachers can take the time to get to know their students and give them personal attention and feedback. Students also have easier access to a variety of support services, such as tutoring, counselling, academic advising, library services, and athletics, to name a few.

# Champlain at a Glance

## It's All About Your Success

Our goal is your success. Champlain College Saint-Lambert provides students with a range of services to help support their academic endeavours and personal growth. Whether a student needs additional help with courses outside the classroom, guidance in choosing a career path or wants more information about getting involved in Champlain College life, experienced and friendly staff are always there to lend a hand. We encourage all students to take advantage of the resources and supportive services provided by the Registrar's Office, Student Services, the Learning Centre and the Library. Students just need to ask and we will assess their needs and guide them in the right direction.

# College Services

## First-Year Student Orientation

First-year students are invited and encouraged to participate in the 1st Year Orientation and Seminars that start the week before class and continue until Labour day weekend. Students will have the opportunity to meet the student FLIP (First Year Leadership Integration Program) team & CSA (Champlain Student Association) representatives, be introduced to the staff and offerings in Student Services, meet faculty and better understand the demands and expectations of academic courses. They will have the chance to be acquainted with Library services and meet an Academic Advisor from the Registrar's office to understand better the ins and outs of the College academic process. It is also an opportunity to meet new friends or catch up with students from your former High School. The orientation is hosted by 2nd and 3rd year Champlain students in a social and community setting where questions are encouraged in hopes of helping newly admitted students to better understand and appreciate the resources and social opportunities available to them.

## The First-Year Leadership and Integration Program

The FLIP program welcomes new students to the Champlain College Saint-Lambert community by providing resources and activities to transition into college life successfully. The FLIP Team organizes activities and workshops throughout the entire year and are the main contributors to the 1st Year Orientation and Seminars. The Team comprises 2nd and 3rd year students at the College who participate in the Champlain iLead Program.

## Career Planning

Some students come to Cégep with an idea of what they want to do and which career path they wish to pursue, but many students are

unsure or confused about which path to take. Career planners will guide students through this process, help them develop a career plan, explore their options through standardized tests, self-reflection, researching careers, online tools, meeting professionals, and exploring experiential opportunities, such as volunteering or workshops and discussion. Career planning is done in groups but can lead to individual sessions where necessary.

## Study Skills

Personal issues or other factors such as time management difficulties, exam/class anxiety, and procrastination may compromise a student's academic performance. Students may also struggle with study skills such as note-taking, organization, preparing for exams, and reading a textbook. The Student Services staff is here to help you through these issues.

## Mental Health Services

Students often need assistance in dealing with emotional or interpersonal issues that may be undermining their ability to achieve personal, academic, and/or career goals.

Licensed psychologists, psychotherapists and social workers are available to work with students to overcome difficulties associated with mental health and well-being.

The mental health team is here to listen and explore these issues with students in a supportive, confidential, non-judgmental way. They collaborate with students to clarify the concern(s) and to help students express their feelings. They assist them in viewing the issue from different perspectives, to explore and identify goals for change, and to determine an appropriate plan of action. The plan of action may include counselling/psychotherapy within the College and/or referral to an outside community resource.

Some of the issues that students bring forth include: depression, anxiety, stress, trauma, transition/developmental difficulties, suicidal thoughts, interpersonal relationships, family concerns, sexuality and gender, diversity, self-esteem, time management, exam/class anxiety, procrastination, study skills, and/or motivation.

## Housing

The Student Services Department occasionally receives and publishes advertisements from local advertisers, which may assist you in locating apartments and rooms in the vicinity of the college. The facilities listed are not inspected by Student Services nor the College. The lease that you sign or the arrangement that you undertake in the case of a private home is your responsibility. When looking for lodging you might like to consider the type of housing you would prefer, whether it is a room in a private home or renting an apartment with a roommate; if meals and services (internet, cable, etc.) are included; laundry; proximity to

the college and to conveniences; parking; access to public transit; noise level; etc

You can find the Housing Registry on our website at [www.champlainsaintlambert.ca](http://www.champlainsaintlambert.ca)

## Student Services

Champlain College takes pride in providing a favourable physical and learning environment where academic and personal development can occur hand in hand. Student Services at Champlain has everything to help you continue your learning outside the classroom, get involved on campus, find out more about yourself, address your mental health and well-being or enhance your college experience. Student Services provides a range of support areas, including services for students with special needs, mental health and well-being, personal and career counselling, and health services. Additionally, it addresses prevention of sexual violence, offers financial aid counselling, and oversees intercollegiate athletics, recreation and intramurals, and student & campus life.

### **Academic Advising**

Academic Advisors assist students in a number of areas related to program progression, course selection, academic performance, and university and scholarship applications. During the year, academic advisors invite university representatives to the Campus to provide information to students about the various programs offered and to answer questions concerning admissions to the universities.

### **Student Access Centre**

The Student Access Centre (SAC) at Champlain College promotes equitable access to education and student life and fosters an environment of inclusion and respect.

Students who may require an Individualized Education Plan (IEP) for academic accommodations should register with the Student Access Centre (SAC) to support their success. The SAC Counsellor is responsible for assessing, establishing, and supervising the implementation of appropriate academic accommodations which may include test accommodations, specialized software, support for study skills strategies, and/or academic coaching.

Students may be eligible to have accommodations if they had an IEP in the past or if they have a medical diagnosis or

undiagnosed limitation. Other students who face circumstances that may impact their success, such as adults returning to school, allophones and single parents, should also contact the SAC.

Students should contact us as soon as they are admitted to Champlain. Please email to [sac@crcmail.net](mailto:sac@crcmail.net), send a MIO to SAC, or call 450-672-7360 ext. 3444.

### **Health Services**

The College Nurse is on campus two days per week and is available to discuss the health concerns of our students in a safe and confidential environment.

Services include:

- Discussing any health preoccupation, assessing the situation and referring if necessary.
- Health counselling for tobacco prevention/cessation, nutrition/fitness, eating disorders, stress and birth control.
- Giving information about/discussing matters of sexuality.
- Educating about ways to prevent sexually transmitted infections (STIs).

### **Learning Centre**

Champlain College Saint-Lambert offers many resources designed to aid students on their path to success. One of these valued resources is the Learning Centre, located in Room B-309 on the library's second floor. The centre provides free individual peer tutoring (in-person and online) by appointment or drop-in service. Tutors are skilled in Calculus, Physics, Psychology, Economics and many other subjects. In addition to instruction on course content, tutors can help students with study skills, time management, work habits, exam preparation, websites for practice skills and computer access availability.

Making an appointment with a tutor at the Learning Centre is as easy as following the three C's:

Choose the time and date.

Consider the areas of focus.

Commit to being on time and ready to learn.

*Students can book an appointment at <https://clctutoring.ca>.*

### **Centre de ressources en français**

Le Centre de ressources en français (CRF) offre aux élèves un service de coaching individualisé afin de pallier des lacunes en français dans le cadre de leurs cours et pour la réussite de l'épreuve uniforme de français. Des séquences d'enseignement adaptées aux besoins particuliers des élèves sont créées à

l'aide du matériel et des ressources fournies par le département de français. Les coachs du CRF sont des élèves provenant des cours de français de niveau avancé et sont supervisé.e.s par un.e professeur.e de français.

### **Centre de ressources en français**

The Centre de ressources en français (CRF) offers students individualized coaching to help them make up for deficiencies in French in their courses and prepare them to successfully complete the uniform French exam. Teaching sequences adapted to students' particular needs are created using materials and resources provided by the French department. CRF coaches are students from advanced French courses supervised by a French teacher.

### **Writing Centre**

The Champlain College Writing Centre is affiliated with the English Department and The Learning Centre. The Centre provides peer tutoring to students in need of help and guidance with all aspects of academic writing and English communication. Specifically, writing tutors help students with citations, annotated bibliographies, paragraph writing, synthesis writing, proofreading, brainstorming activities, revision of essays, grammar instruction, and word choice issues.

# Onkwehón:we Initiatives

The original people/Indigenous people Initiatives

Champlain College Saint-Lambert places a high priority on embracing Onkwehón:we (The original people/Indigenous) ways of life both within and beyond the classroom. Our commitment to cultural knowledge and understanding the histories of this land demonstrates our active support for the Truth and Reconciliation Commission of Canada. At Champlain, we have fostered a supportive and encouraging environment for Indigenous students. We provide academic assistance, address transitional barriers, and provide full time support with the new position of the Indigenous Student Life Counsellor.

By celebrating and incorporating the beautiful and diverse cultures of Indigenous nations across Turtle Island, we aim to strengthen the connection between Indigenous students and their heritage, while providing an opportunity for non-Indigenous community members to expand their knowledge and understandings.

The collaborative efforts of our faculty, staff, and the dynamic Community of Practice committee are instrumental in supporting our Champlain Indigenous Student Ambassadors. These ambassadors play an active role in the community by offering support to first-year students, organizing Indigenous Orientation Retreats, and establishing partnerships with Indigenous students from other Cégeps and organize a multitude of workshops with Kahnawa'kehró:non (community members of Kahnawà:ke).

One of our notable initiatives is the week-long event led by the Indigenous Student Ambassadors called "Shé:kon Kèn:'en Itewe's" (We Are Still Here). This event focuses on sharing Indigenous histories and raising awareness about Residential Schools. It features workshops and various activities that culminate in a College-wide ceremony on National Truth and Reconciliation Day. During this time, we gather to honor the Indigenous children who never returned home and show our respect for the survivors. Additionally, the George Wallace Library hosts an expanding Truth & Reconciliation Collection, accessible through the Champlain TRC Community of Practice link on the Omnivox Portal. Throughout the remainder of the academic year, onkwehón:we workshops and guest speakers are organized to reclaim Indigenous voices and narratives in post-secondary education.

We continually incorporate new ideas and course components addressing Indigenous issues into our evolving curriculum. By doing so, we strive to cultivate students who:

- Recognize and respect diversity.
- Embrace individual differences with openness.
- Value Reconciliation and understand the significance of Truth in today's historical context.
- Actively contribute to Reconciliation efforts by engaging in Indigenous Education and Culture.

# George Wallace Library

Named in honour of George W. Wallace, a former Champlain College Saint-Lambert teacher and Campus Director, the George Wallace Library is located on the second and third floors of B-Block. New to research? The librarians and technicians are available for in-person or online (email, MIO, or live chat) assistance for all your research projects. You will receive training in the basics of research and academic integrity as an integral part of the first-level Humanities course. Other teachers may also arrange for course-specific library instruction in other subject areas.

The library website provides essential information connecting you to various electronic resources, tools, and guides for you to use while researching assignments and writing bibliographies. There is plenty of space for individual study, with a beautiful view of the ships passing on the St. Lawrence Seaway. If you need a computer to use in the library, borrow a laptop for 2 hours (renewable). Print your documents in black and white or colour using the printing credits issued to you by the college every year.

## Bookstore

Students can purchase required textbooks on campus. Online ordering and Book Rental Program is also available. Visit our bookstore (F-117) at the College or online at [www.bkstr.com/champlainregionalstore](http://www.bkstr.com/champlainregionalstore)

# General Education

## What is the purpose of the General Education Component?

Regardless of which educational path you choose to follow, you will take both program-specific courses and general education courses. General Education is an essential component directly linked to the three main goals of college education:

1. To educate students to live responsibly in society.
2. To help students integrate cultural knowledge into their studies.
3. To help students master language as a tool for thought, communication and openness to the world.

Your English, French, Humanities, Physical Education and Complementary courses are designed to help you develop competencies associated with these goals.

## Components of General Education

English

French

Humanities

Physical Education

Complementary

# General Education Courses

## English Courses

At the start of their program, students are all placed in the Introduction to College English course, which introduces them to thinking, talking and writing about literature at the college level. Upon successful completion of this course students go on to studying:

### Literary Genres

The objective of Literary Genres courses is to enable students to apply a critical approach to the study of literary genres. Students will learn to recognize literary genres and their conventions. Successful students will understand a work's relationship to literary and historical context.

### Literary Themes

The objective of the Literary Themes courses is to enable students to apply a critical approach to the study of literary themes. Students will learn to recognize a work's literary themes, cultural context and value system. Students will analyze a text from a thematic perspective.

### Program Specific - Block B

The objective of the Block B courses is to enable students to communicate in forms appropriate to specific programs. Students will learn to recognize how facts and arguments are organized in different disciplines. Students will learn to develop their own ideas into arguments, to organize them and to edit their work.

## French Courses

French is an important component in Quebec society and an essential General Education element for students to obtain their Diploma of Collegial Studies (DCS). Students must complete a French course sequence based on their academic background and English instruction eligibility.

As of the Fall 2023 semester and in accordance with Law 14, non-English eligibility certificate holders (non-ayant droits) will complete a French course sequence that will prepare them to successfully complete l'Épreuve uniforme de français (EUF), which, for these students, is a requirement to obtain their Diploma of Collegial Studies (DCS).

In contrast, English eligibility certificate holders will be placed in a French proficiency level based on their academic background and results.

As of the Fall 2024 semester, and in accordance with Bill 14, non-English eligibility certificate holders will also be required to complete three program courses in

French while certificate holders will be required to complete three program courses in French or three additional French courses.

We strongly recommend you speak to an Academic Advisor if you have questions regarding your academic path.

## Humanities Courses

The Humanities courses are developed around three major themes – Knowledge, Worldviews and Ethics. Students must take one course from each of these categories.

### Knowledge

Courses in this group examine ways of knowing, ways of assessing knowledge and truth and the difference between knowledge and belief. Students will begin to understand how knowledge can be organized, analyzed and related to historical context. Students will consider how knowledge is used to restrict or contribute to the progress of a society.

### Worldviews

A worldview touches every aspect of a person's life. A worldview may be common to an entire civilization or historical period, or specific to a particular social group or philosophical outlook. Courses in this group examine how ideas, values and experiences inherent in a worldview influence an individual's understanding of the world. Students will analyze and compare the central ideas of two or more worldviews with the goal of understanding how worldviews both reflect and shape societies.

Humanities Block-B - Program Specific Courses in this group require students to examine the connection between ethical choices and social responsibility. A number of theories and principles of ethical decision-making are introduced. Students are required to consider opposing sides of issues related to their program of study by applying ethical theories.

## Physical Education Courses

The three Physical Education courses of the General Education component aim at getting students to develop an active and healthy lifestyle.

The 101 course involves identifying the role that certain lifestyle behaviours, such as regular physical activity, good nutrition and stress management, play in the pursuit of optimal health and well-being. Students will examine the health and wellness effects derived from participation in regular physical activity and will explore the effects of their current lifestyle habits.

The 102 course is skills-oriented. Each student will be expected to analyze the factors that contribute to the acquisition of skills to be a successful participant in their chosen activity. Using a problem-solving approach, the student will conduct a personal analysis of their knowledge and abilities, establish personal goals, and plan strategies leading to the improvement of those skills.

The 103 course addresses the competency of designing and managing a personal activity program that incorporates healthy lifestyle choices. This course contributes to the development of responsible behaviours leading to the promotion and improvement of health. The learning situation will require the application of fundamental knowledge and experiences acquired in the 101 and 102 Physical Education courses. The student will explore a variety of health-related activities and be responsible for choosing, performing and scheduling activities appropriate to meet personal needs, interests and abilities.

To respond to students' diverse interests, abilities and motivations, Champlain Saint-Lambert offers a wide range of courses – downhill skiing, snowboarding, water front activities, basketball, badminton, total body conditioning, soccer, volleyball, ice activities, hiking, tennis, yoga, weight training and canoe camping etc.

## Complementary Courses

Complementary courses give students the opportunity to explore academic fields and topics outside of their program of study.

COLLEGESAINTE-LAMBERT

Science Program 200.B0

# Science Options - Health Science or Pure & Applied Science

## About the program:

The two-year pre-university Science Program prepares you for university admission to various Science Programs. At Champlain, we have found that the best way for students to succeed is by making them part of their courses and studying scientific problems the way professional scientists do. The Biology Department offers courses that will allow you to develop traditional laboratory skills while also experiencing scientific investigations in the field. In Chemistry, you will practice what you learn thanks to a significant lab component in each course. In Physics, you will be exposed to a variety of teaching techniques (demonstrations, interactive computer programs and videos, use of telescopes, etc.) to illustrate and show applications of the concepts being learnt and to actively engage you in the classroom and at home. In Mathematics, you will delve into advanced concepts and problem-solving techniques, honing your analytical skills and logical reasoning abilities.

### Science Options – Health Science or Pure & Applied

Champlain offers two distinct streams of scientific study: Health Science and Pure & Applied Science. Each stream gives students a solid foundation in biology, chemistry, mathematics, and physics. Health Science includes additional instruction in biology and chemistry to better prepare graduates for university study in medicine and health science research programs. Students in Pure & Applied Science have more flexibility in their studies and can choose from additional science credits to better suit their academic ambitions.

---

Application Deadline:

March 1<sup>st</sup> for the Fall Semester  
November 1<sup>st</sup> for the Winter Semester

---

Minimum Admission  
Requirements:

Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Réglement sur le régime des études collégiale, they may be refused admission due to lack of space.

---

Prerequisites:

Mathematics TS 5 or SN 5, Secondary 5 Chemistry, Secondary 5 Physics

---

# Science Options

---

## Health Science - The Possibilities

---

Dietetics, Pharmacy, Optometry, Biology, Forensics, Nursing, Nutrition, Biochemistry, Education, Dentistry, Microbiology & Immunology, Biotechnology, Chemistry, Occupational Therapy, Veterinary Medicine, Psychology (B.Sc.), Physiotherapy, Experimental Medicine.

---

## Pure & Applied - The Possibilities

---

Agronomy, Chemical Engineering, Architecture, Mathematics (B.Sc.), Agriculkytre, Chemistry, Forestry, Physics (B.Sc.), Engineering, Computer Science, Geology.

---

## Facilities

---

The Chemistry Department has four well equipped labs furnished with tools for classical chemical measurements and sophisticated technological analysis. In their chemistry courses, students will master valuable classical techniques such as titration, distillation, and solvent extraction as well as modern analyses such as spectrophotometry, gas chromatography and computer aided measurements. A hands-on approach in the chemistry lab allows students to directly observe concepts studied in the classroom and see immediate results.

The Physics Department has four fully equipped labs, three used by students for standard experiments, and one for special projects. The labs are equipped with the latest computerized data collection and analysis tools to enhance your experimental skills. Each lab workstation has a computer and sophisticated sensors and data acquisition devices that allow you to see the outcome of your work immediately.

Students in the Biology Department have hands-on experience with new equipment such as compound and stereo-

microscopes, gel electrophoresis units, and thermocyclers for gene amplification techniques. Labs provide the opportunity to handle live specimens such as fruit flies in genetic studies, pond microbes in ecological assessments, mammalian dissections to explore and compare other forms of life to the human body, and delicate manipulations using an aseptic technique of plant tissue while exploring tissue culture methods.

---

## Off-Campus Activities

---

Studying and understanding the various ecological systems in our environment is an essential aspect of our Biology labs. Environmental studies at Champlain College Saint-Lambert provide students with the benefits of experiencing light fieldwork during their studies, focusing on water analysis from the St. Lawrence River. Students will become aware of and understand problems dealing with pollution and sustainability. Students have other opportunities to observe life outside of the lab during structured activities and data collection at the Botanical Gardens and the Biodôme, opening their eyes to the similarities and differences observed in the diverse living world.

For off-campus astronomical observations, the physics department has more than forty portable telescopes that can be borrowed by students.

COLLEGESAINTE-LAMBERT

Science Program 200.C0

# Computer Science & Mathematics

## About the program:

This program will allow graduates to pursue studies in the exciting and ever growing field of Computer Science. As a pre-university program, students are also able to enter university programs in Mathematics, Actuarial Sciences, Computer Gaming, Information Systems as well as traditional fields of study in both engineering and sciences.

The innovative computer science courses in this program will give you the chance to take your skills, interests and passion for computers and technology and turn them into an exciting base for academic studies. Students will use a program approach to present scientific solutions to problems using math, chemistry and physics. While studying Computer Science and Mathematics you will combine science and computer technology courses.

## You will learn:

---

1. Interpret and evaluate solutions and theories
2. Take a systematic approach to problem solving
3. Use information and communications technologies to solve problems in a scientific context
4. Conduct research and carry out projects pertaining to situations, problems or issues by drawing on several fields of knowledge
5. Learn to work individually and as part of a team
6. Develop personal abilities in analysis and reasoning
7. Conduct a comprehensive assessment in the area of computer science and mathematics

COLLEGE SAINT-LAMBERT

Social Science Program 300.A0

# General Studies in Social Science (with or without Math)

## About the program:

The general profile of the Social Science program allows students the greatest amount of flexibility when selecting social science courses. It allows you to explore the social sciences before making a commitment to a particular subject or area of study. It provides you with a strong background in the seven social science disciplines that will allow you to pursue studies in many programs at university.

In addition to traditional class lectures, teachers use a wide variety of teaching methods to keep classes interesting and dynamic. Multimedia, computer simulations, sources from current events and the news, and debating are all part of teaching and learning at Champlain College.

The possibilities: Anthropology, Communications, Education (Including Physical Education), English, Foreign Affairs, Geography, History, Industrial Resources, Journalism, Law, Literature, Philosophy, Political Science, Public Affairs, Religion, Sociology, Specialized Writing (Economics, History, Politics), Social Work.

---

### You will learn:

- Communicate ideas clearly in written and oral formats.
- Work effectively as a member of a group.
- Use strategies that allow you to reach your short and long-term goal.
- Develop comprehensive research skills.
- Mathematics is available to students who want to meet certain university program entrance requirements. Some restrictions may apply.

---

### Structured and organized:

Teaching in our Social Science program is structured to ensure that courses complement each other. This coherence assures that what you are learning is both practical and purposeful while preparing you for university studies. Social Science is the study of human behaviour and social phenomena through the use of a wide variety of both qualitative and quantitative methods. Social Science involves many bodies of knowledge including anthropology, economics, geography, history, political science, psychology and sociology. Through a variety of courses, students will have the opportunity to study human interactions with other individuals, groups, institutions, cultures and societies using the tools and methods of a social scientist.

---

### Application Deadline:

March 1<sup>st</sup> for the Fall Semester  
November 1<sup>st</sup> for the Winter Semester

---

### Minimum Admission Requirements:

Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Réglement sur le régime des études collégiale, they may be refused admission due to lack of space.

---

### Prerequisites:

Sec IV Cultural, Social and Technical Math 4 (563414 or 063414)

COLLEGE SAINT-LAMBERT

Social Science Program 300.A0

# Commerce/World Commerce Profile in Social Science

## About the program:

The Commerce profile of the Social Science program is a two-year pre-university program for students interested in pursuing careers in commerce, business administration, international business, law, computer science and more. The Commerce profile provides students with the required mathematics, business, economics and computer literacy courses required for university admission. The multi-disciplinary approach offers students the opportunity to study history, psychology, and at least one other discipline providing the strong social science background sought by universities. Students will benefit from working in a team environment fostering academic excellence. An international component will convey an understanding of the impact of culture on commerce and trade in a global market.

The possibilities include: Market Research, Company Secretary, Capital Markets Manager, Economist, MBA, Stock Trader, Chartered Accountant, Investment Banker, Cost Accountant, Financial Analyst, Insurance & Risk Management, Tax Auditor.

## Skills Acquired in the program:

- Communicate ideas clearly in both written and oral formats.
- Develop comprehensive research skills.
- Work both independently and as a vital member of a group.
- Develop managerial skills.
- Develop strategies to reach short and long-term goals.
- Build confidence and focus on success.

## Unique features about the program:

- The largest number of students in a specialized option in the Social Science Program at Saint-Lambert.
- The first stepping-stone to obtaining a Bachelor of Commerce or Bachelor of Economics degree at university.
- Leads to future studies and careers in such areas as Commerce, Economics, Journalism, Engineering, International Business, Law, and Computer Science.

## Application Deadline:

March 1<sup>st</sup> for the Fall Semester  
November 1st for the Winter Semester

## Minimum Admission Requirements:

Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Réglement sur le régime des études collégiale, they may be refused admission due to lack of space.

## Prerequisites:

Mathematics TS 5 or SN 5

Social Science Program 300.A0

# Criminology Profile in Social Science

## About the program:

Do you have a taste for stories of crime either as fiction or in real life? Are you intrigued by a mystery? Then the criminology profile is a good fit for you. In the Criminology Profile, you will explore the world of crime from different perspectives presented by the different disciplines of Anthropology, History, Psychology, and Sociology. You will learn about the profiles of criminals, studying notable crimes, and have guest speakers from varying backgrounds, such as police officers, youth protection workers and recovered addicts. The Criminology Profile will provide you with a foundation in the study of humans across time and space and you will learn about the human body and its bones. The course has an element of labs and an outdoor lab where a mock crime scene is investigated by the students.

Students in the Criminology profile gain a strong foundation in social sciences. While they can naturally progress to university programs in Law or Criminology, this is not strictly a pre-law program. Their academic preparation extends beyond Crime and Law, allowing them to delve into other social sciences like Anthropology, Geography, History, Sociology, or Political Science. Those choosing to specialize in Law or Criminology at university can explore careers in penitentiaries, probation, law enforcement, private policing, law reform, or rehabilitation programs. Alternatively, students can venture into journalism, administrative and research roles in the criminal justice system, or positions focused on policy formulation and implementation in social and judicial agencies.

Social Science Program 300.A0

# Education Profile in Social Science

## About the program:

Would you like to become a teacher, a coach, or work with children or youth in any way? Then the Education Profile is for you. The profile is intended for students considering a career in teaching or other fields related to education. It is also a good option for students who are still uncertain about their career path, since it offers a foundation in several social science disciplines: Anthropology, Psychology, and Sociology. Students can certainly choose other programs than education at university after completing this profile.

The Education profile provides you with the possibility to experience education in real life settings, at schools or community organizations. You will be doing a field work component consisting of helping at these organizations. During this placement you will be observing the interaction between teachers, aids, technicians, social workers, or coaches while they work with children or youth.

You will explore in this profile the connection between education and society at large, and how education leads to a place in the labour force. Through your social science disciplines, Anthropology, Sociology, and Psychology, you will learn about the obstacles and challenges that children and youth face in school today, such as racism, bullying, and learning disorders, and how to spot these issues in a learning environment.

While the Education profile focuses on education, it also provides a solid preparation for many different university programs. The social science perspective with analytical and writing skills, acquired by completing the profile, is useful regardless of the path you choose.

Social Science Program 300.A0

# Psychology Profile in Social Science

## About the program:

The field of psychology investigates the interaction between the mind and behaviours in humans. Students intrigued by what influences behaviour, how behaviour is modified, and the different perspectives to understand this process will have their curiosity rewarded in the Psychology profile. Students will be introduced to the fundamentals of psychology and will be given the freedom to explore two specialized fields, including but not limited to psychology of mental health, developmental psychology, human sexuality and social psychology. At the same time, students will acquire core social science and research methodology skills, preparing them for eventual university study. This profile is for students interested in furthering their studies in Psychology at the university level. As part of the Social Science program, the Psychology profile satisfies the requirements for most Bachelor of Arts university programs. Students considering careers in counselling, communication, social work, human relations and public relations will benefit from expanding their knowledge of psychology. Students who complete this profile may also apply to university programs such as Anthropology, Sociology, History, Education and Law.

# International Studies Profile in Social Science

## About the program:

The International Studies profile of the Social Science program is designed to prepare you for university studies with an international focus. It will lead to an understanding of the world's diverse communities and of the cultural, economic and political implications of achieving closer international relations. The profile focuses on building a solid foundation in the social sciences, particularly in world geography, 21st century history, international economics and international politics.

---

### You will learn:

---

Develop knowledge and an interest in international affairs and an in-depth understanding of the impact that international forces and events have on humanity and the environment.

Develop the ability to communicate in and about an international context.

Develop the ability to observe, analyze and evaluate international life from an interdisciplinary perspective.

Develop the ability to understand international events and processes in an ethical context.

Develop the ability to work in a team and to appreciate other cultures and value systems.

The International Studies profile will prove useful to students planning a career in public service, law, journalism, or in those parts of the private sector which have international interests.

### Choose your Level II Concentration courses from:

Anthropology, Economics, Geography, History, Psychology.

Arts, Literature & Communication Program (500.A1)

# Language & Culture

## About the program:

The Language and Culture option of the Arts, Literature & Communication program is a two-year pre-university program that immerses students in the study of language, thought, culture, and national traditions while encouraging trans-national approaches and cultural plurality. Our goal is to enable students to develop communicative skills in Spanish and Italian and provide critical tools to understand the complexities of cultural traditions.

Gone are the days when students would study languages with the sole intention of pursuing a career in translation or interpretation. In today's global job market you will find many professionals, business executives, diplomats, economic and market analysts and journalists with a degree in Languages and/or a degree in the Arts. Cultural adaptability, critical thinking and reasoning, problem solving and adeptness in multiple languages are skills that are sought after by many employers.

Studying Language and Culture at Champlain College Saint-Lambert is the first step to widening your inter-cultural awareness and providing you with valuable communicative skills that will help to prepare you for a global job market.

The possibilities: Corporate Law, Immigration Law, Communication Studies, Art History and Communication Studies, Linguistics, Journalism, History, Languages, Industrial Relations, Sociology, Community, Public Affairs and Policy Studies, Teaching English as a Second Law Language, Undergraduate Leading to a Teaching Certification.

Arts, Literature & Communication Program (500.A1)

# Digital Arts & New Media

## About the program:

Digital Arts & New Media is one of two interconnecting Media profiles in the Arts, Literature and Communication program. This exciting pre-university program prepares students for a wide variety of university studies and careers. The program’s dynamic mix of theory and practice gives students a chance to sharpen their technical abilities, cultivate their artistic skills, develop critical understanding of visual culture, and express their creative voice.

### You will learn:

Students will learn both digital arts and traditional studio arts practices to develop a comprehensive skill set preparing them for a variety of fields in the arts. The courses are designed to develop communication skills and critical thinking through a variety of creative approaches. Students will work on projects across mediums such as drawing, animation, sculpture, 3D modelling and digital imaging.

Courses are taught with the philosophy of experiential learning in mind, using project-based methods that allow students to learn the tools and techniques whether it be virtual or physical. These courses are complemented by theoretical courses that foster critical thinking through subjects that vary from art history to the analysis of visual culture.

### The possibilities:

Graduates of Digital Arts and New Media are prepared for a wide variety of related art-based university programs such as computational arts, studio arts, communications, video game studies, animation, design, industrial design, art education, art history, scenography, as well as many other undergraduate programs including sociology, history and education. Join us and prepare to engage in exciting studies that will open doors to a world of possibilities.

Arts, Literature & Communication Program (500.A1)

# Film & New Media

## About the program:

Film & New Media is one of two interconnecting Media profiles in the Arts, Literature and Communication program. This pre-university program is an exciting mix of theory and practice that gives you a chance to experiment and create using a variety of media.

### You will learn:

---

In the Film and New Media profile, you will progressively master the fundamentals of writing, shooting, recording sound, and editing, whether in fiction film, television, animation, radio or any number of multimedia platforms. Through written and visual communication, you will sharpen your creative abilities, critical thinking, and academic skills.

The courses take place in our exciting television studio, workshop spaces and digital lab. In the journalism and documentary courses you will apply your creative and technical skills to the telling of real-life stories that are important to you. In the filmmaking classes, you will invent your own stories and learn how to bring these ideas to screen. You will also have the chance to experiment in special effects and animation as well as develop your sense of critical thinking through subjects that vary from film history to the analysis of contemporary visual culture.

### The possibilities:

---

In our media saturated world, visual literacy is more important than ever. Our graduates are able to transfer their learning into almost any field requiring an understanding of the creative process, self-motivation, and project management abilities.

Our graduates have found careers in advertising, marketing, journalism, film production, television, radio, animation, app design, computer gaming, special effects design, education, music production, photography, acting, public relations and many other fields.

*Join us and prepare to engage in exciting studies that will open doors to a world of possibilities.*

Liberal Arts Program (700.B0)

# Law and Civilization (with or without Math)

## About the program:

Our students receive a well-rounded education based on interdisciplinary studies exploring ideas and knowledge-building skills in law, history, philosophy, religion, art history, social sciences, natural sciences, and mathematics.

Our students will benefit from an environment where faculty and students work together in a community dedicated to learning.

Our students will develop as individuals and gain self-confidence through team-building, problem-solving and cooperative projects.

Our students will develop critical thinking and study skills while expanding oral and written communication skills.

Our students will have an opportunity to participate in extra-curricular activities such as concerts, plays, movies, field trips, and more. These activities will help broaden and further enrich our students' understanding of Liberal Arts from outside the classroom.

We are the only CEGEP to offer two unique options under the Liberal Arts Program.

COLLEGESAINT-LAMBERT

Nursing Program (180.A0)

## Nursing

### About the program:

Nursing is a three-year program that blends classroom studies and nursing labs with clinical fieldwork in various hospitals and healthcare facilities.

Our mission is to develop graduates recognized as outstanding nurses providing compassionate and quality care, focusing on the unique needs of patients and their families.

Students experience a variety of Francophone and Anglophone clinical settings such as emergency, medical and surgical care, pediatrics, maternity, ambulatory care, mental health and gerontology. A DEC in Nursing will provide an opportunity to write the provincial licensing exam in order to begin employment as a registered nurse. Our graduates also have the opportunity to pursue continued studies in the DEC-BAC program with a university in Quebec, such as McGill University, Université de Sherbrooke and Université de Montreal.

---

#### Certification requirements:

---

In order to become a practicing nurse, graduates must pass the l'Ordre des infirmiers et infirmières du Québec (OIIQ) licensing examination. Students must also demonstrate their ability to function in French in order to meet the needs of their clientele, thus they may be required to pass an examination set by the Office québécois de la langue française (OQLF).

---

#### What makes us unique:

---

Small innovative program with all the resources of a large nursing program.

Bilingual program with Francophone and Anglophone clinical settings that meet the needs of today's society.

Final semester dedicated to reviewing all theoretical and laboratory material to consolidate knowledge and prepare for licensing exam.

Program based on the McGill Model of Nursing with a Strengths-Based Nursing philosophy.

New laboratory facilities and Simulation Centre.

#### Minimum Admission Requirements:

Quebec Secondary School Diploma or a level of education that is deemed equivalent by the College. Even if applicants meet the requirement of the Règlement sur le régime des études collégiale, they may be refused admission due to lack of space.

#### Additional Minimum Requirement

Letter of Intent

Must be eligible to take Français et communication 602-101

It is recommended that candidates have completed Sec IV Mathematics Technical & Scientific Option (064406 or 564406) or Mathematics Science Option (065406 or 565406) or Math 436 or Math TS 4 or SN 4.

#### Prerequisites:

Sec IV Environmental Science & Technology (058-404 or 558-404) or Sec IV Science and Environment (058402 or 558402) or Physical Science 436

Sec V Chemistry (051-504 or 551-504) or Chemistry 534. Adult Education Equivalences – PSC 4010, 4011 & 4012, Chemistry 5021, 5042, & 5043 with labs.

Placement at the French 101 level (or higher) required

#### Application Deadline:

March 1st for the Fall Semester

Business Management Program (410.D0)

# Sport Marketing & Management Option in Business Management

## About the program:

The Sport Marketing & Management option of the Business Management program is a three-year program designed to prepare students for careers in a wide range of sport-related enterprises. It is designed for the student who enjoys having responsibility, taking initiative, dealing with the public and being part of a team.

This three-year technical program has a practical approach to learning using simulations, case studies, and assorted software applications. Students will have the opportunity to complete fieldwork or to develop a project through an independent study in sport. Sport Marketing & Management will give the knowledge and skills needed to succeed in business and can lead to a career that is both challenging and rewarding.

**The possibilities:** The aim of the program is to prepare students for management or marketing positions in: sports marketing companies, sports and communication firms, amateur athletic organizations, corporate fitness and wellness programs and professional sports teams/leagues.

Business Management Program (410.D0)

# Entrepreneurship Option in Business Management

## About the program:

The Entrepreneurship option of the Business Management program is a three-year program designed to provide students with all of the necessary skills and knowledge needed to build and operate a successful business. Our curriculum covers a broad spectrum of competencies in the areas of marketing, finance, accounting, sales, products & services, online ventures (e-Commerce) and legal issues with a focus on best practices required for Quebec and international businesses.

Our program includes a unique and innovative approach to the business world. The “Incubator” component offers students the opportunity to put into practice the theoretical portion of the program by designing and launching their own business. The Incubator courses include the essential business principles related to funding, investment, strategic planning, facility planning, coaching, cost assessment as well as needs in human resources.

---

### You will learn:

---

- Start-up a business from A to Z.
- Acquire a franchise in pre-established companies.
- Foster the continued development of family owned businesses.
- Manage aspects of a commercial project.

---

### Application Deadline:

Computer Science Program (420.B0)

# Computer Science Technology

## About the program:

Computer Science Technology is a three-year career program designed to provide you with a strong background in object-oriented methodology, particularly in program design and system analysis. Web concepts are integrated into courses and develop dynamic database-driven web applications on various operating system platforms. The program will focus on computer programming, operating systems, database and web technology, data communication and networking, security, and advanced programming languages.

Students in the Computer Science Technology diploma program will benefit from our modern facilities where every course uses a combination of class and laboratory time with access to the most recent versions of software. As a bonus, each student benefits from access to the same software for use on their own devices as part of our academic alliances with software vendors. Staff, faculty, and student advisors are committed to helping you succeed and prepare for a stage-training program in Semester 6 in an external business institution. The program features a well-rounded blend of technologies that will prepare you to graduate as a developer, technician, or administrator of technologies in various industries. Our advisory committee of IT business professionals reviews the offerings each year and suggests adjusting the curriculum to reflect current and forecast computer technology needs.

---

### The possibilities:

The program prepares you for various careers such as software developer, information systems specialist, PC specialist, and more. The technical and business skills you will learn in Computer Science Technology will qualify you for some of the most dynamic in-demand jobs in the computer industry today. Students may also pursue university studies in many fields, including software engineering, business, or other science programs.

---

### Skills Acquired in the program:

Client-server Development, Cloud Development, Computer Programming, Computer and Networking Support, Database Design and Administration, Gaming, Internet of Things, IS Security, Modern Systems Analysis and Design, Mobile App Development (Android and iOS), Problem Solving, Operating Systems Object Oriented Methodology, Software Design.

---

Application Deadline:

## Student Life

Champlain College provides a variety of student-centered activities on and off-campus during the academic year. Whether it be academic-based trips, student competitions, or social community events, Champlain has a lot to offer. Our goal is to focus on the passions of our students and encourage them to be active participants and organizers in making their interests come true. In addition, we look to involve our students in cultural and community-based experiences and events to widen their understanding and knowledge of the Champlain community. Students are encouraged to get involved and create a memorable college experience. Download the Go Champlain App to bring campus life to your fingertips and connect with the Champlain College Saint-Lambert community.

### **Champlain Students Embrace Diversity**

Students are encouraged to experience the varying cultures and community groups which make up our College. Each year, the Multicultural Community (MCC) and Black Lives Ally Mission (BLAM) student groups organize a variety of events such as Black History Month, Multicultural Week(s), Cultural Tours and many more, to promote the importance of diversity and sense of community on campus. 1st year students are invited to attend and be active participants in the organization of the MCC & BLAM committees.

### **Champlain Student Association (CSA)**

The CSA is an active agent for educational and social change on campus and plays a key role in the funding and organization of student clubs and events. The CSA encourages active participation in student life for all Champlain students and can be reached at: [csa@crcmail.net](mailto:csa@crcmail.net) (Office F-118).

### **Campus Life Activities**

Dependent on student interest, activities can include: anime/video game overnight events, art festivals, Black History Month, Business Case Competitions, Winter Carnival, Champlain's Got Talent, Charity Week, Commerce Games, dance shows/contests, DECA events, De-Stress Week, Earth Week & environmental activities, fashion show, financial literacy workshops, food drives, green committee, honey harvest, iLead leadership retreats/workshops, intercollegiate collaborations, intramural sports, job & volunteer fair, Le Grand Defi Pierre Lavoie, lunchtime aerobics, open gym & weight training, math competitions, midnight madness sports, Model UN, mental health & wellbeing month, movie nights, multicultural festival & block parties, music shows/concerts, recreation & wellness classes, Relay for Life, science fair, stand up comedians, programming & engineering challenges, REACH activity day, Réseau intercollégial des activités socioculturelles du Québec (RIASQ), Suicide Prevention Week, Semester Saver, study nights, TEDx events, theatre productions, Tournoi jeunes démocrates.

### **iLead Leadership Program**

The iLEAD leadership program was developed based on the Social Change Model which uses an inclusive values-based approach to leadership development. The I-LEAD program was designed to offer you, the student, a variety of opportunities to explore and develop your leadership potential. The I-LEAD program is designed to be accessible to you regardless of whether you are currently in a leadership role on campus or have had leadership experience in the past.

### **FLIP**

FLIP is the leadership and integration program made up of student leaders dedicated to helping students transition into college life. FLIP leaders meet regularly to design creative ways to create community on campus in collaboration with various student groups.

## The Champlain Cavaliers

The Champlain Cavaliers Intercollegiate Program currently has 10 teams competing in 7 sports at different levels in the Réseau du sport étudiant du Québec (RSEQ). The Cavaliers currently field teams in Badminton, Basketball, Cross-Country Running, Flag Football, Football, Soccer, and Volleyball. With an average of 225 student-athletes on their teams, the Cavaliers have captured numerous regional and provincial championships since they started playing back in 1974. In addition to leaving a mark at the local level, the Cavaliers have also been a force nationally, as a member of the Canadian Collegiate Athletic Association (CCAA). Our D1 Basketball and Soccer teams, as well as our Cross-Country Running teams continually rank amongst the top colleges in Canada.

With more than 60% of our student-athletes maintaining an 80% or higher academic average, quite a few of our student athletes have gone on to compete at the USport and the NCAA levels while continuing their post-secondary studies, while others have competed at the international level or played in professional leagues. The Cavaliers have a proud history. We want our student-athletes to develop and succeed in the classroom and on the field of competition. We want to see you become a part of that tradition.

For more information on our Cavaliers teams, please visit [www.champlaincavaliers.com](http://www.champlaincavaliers.com). Follow us on Facebook, Instagram (champlain.cavaliers), Twitter (champlain\_cavs), or YouTube (theChamplainCavs).

## Academic Coaches on Campus

Academic coaching is available to all our intercollegiate student-athletes by one or more

volunteer staff or faculty members. Student-athletes meet with their academic coaches regularly throughout the academic year. These meetings provide an opportunity for our academic coaches to offer support, feedback and identify the best resources that will help the student athletes academic success. This one-on-one relationship benefits our Cavaliers by developing stronger connections and a better understanding of the support services provided by the College.

## RTP Athletic Therapy

RTP Athletic Therapy is a private clinic that offers specialized injury management services including intervention, evaluation, treatment and prevention of musculoskeletal injuries, as well as bracing services and direct access to a variety of healthcare professionals. The clinic extends these services exclusively to intercollegiate athletes most weekdays between 4:00 - 9:00 p.m. and works with student athletic therapy interns from the Concordia University Athletic Therapy Program to help all of our athletes get back in the game. RTP is located in room D-123 next to the gymnasium and also offers private appointments to the Champlain community and to the public.

### Campus Recreation and Intramural Sports

Full-time day students have the opportunity to participate in both indoor and outdoor recreational sports and activities. The gym and dance studios are available for students to use from 12:00 - 1:00 p.m. on Mondays, Tuesdays, Thursdays and Fridays. On Wednesdays, during Free Block, these areas are open between 12:30 – 2:30 p.m. These open gyms allow students to play badminton, basketball, or whatever activity is being offered that day.

Organized intramural league play takes place during the Free Block on Wednesdays between 12:30 - 2:30 p.m. Intramurals are recreation-based leagues that are held over a few weeks during each semester. They are open to all full-time students, faculty and staff and are free! Don't get too carried away – these games are played for fun with other Champlain students. Intramurals are open to all – no need to be a top prospect – and any and all skill levels are welcome.

Games are played in the gym or outside on the nearby Seaway Park fields. Past intramural sports have included Badminton, Basketball, Cosom Hockey, Dodgeball, Flag-Football, Soccer, Ultimate Frisbee and Volleyball, but we're always looking for new ideas and sports to try! Please don't be shy about sharing new ideas with our intramural and recreational staff!

### CSA Fitness Centre

The CSA Fitness Centre offers the opportunity for students to work out and train throughout the day. Open from 7:30 a.m. to 6:30 p.m Monday to Friday, this new facility is open to all Champlain students to help them obtain or maintain their well-being. The CSA Fitness Centre also offers specific training sessions and opportunities throughout the year, like boot camps for group and beginner sessions.

# Fees, Financial Aid, Scholarships

---

## Student Fees Per Semester:

---

For all students:

\$30 Application Fee
----------------------

\$230 Semester Fee <i>(Includes optional \$15 Foundation Fee)</i>
--

## Additional Fees Required:

Quebec Non-Resident	International Students
\$1780 per semester	\$7000 per semester

All fees may be paid online through your Omnivox account. Fees are subject to change without notice.

---

## Financial Aid

---

Located in the Student Services, the financial aid office works with students to ensure they have the financial resources to remain in school. This can include financial planning, government loans, bursaries, the College Foundation emergency loan program, the food bank and the College community kitchen.

---

## Scholarships

---

Champlain College Saint-Lambert offers a Scholarship Program for incoming, current and graduating students. The scholarships are awarded to the student in each program with the highest entering academic average among students with averages of 80% or higher.

Scholarships totaling approximately \$10,000 are awarded each year. At the end of their studies, graduating students are eligible for various awards, medals and prizes such as the Lieutenant Governor Award, the Board of Governors Award and the Quebec Association of Retired Teachers prize. Champlain College Saint-Lambert is proud to have mentored five winners of the prestigious Loran Scholarship (valued at approximately \$100,000) and most recently the recipient of a Schulich Leader Scholarship (valued at \$80,000). Our graduates have also been awarded entrance scholarships to universities such as McGill, Concordia, Université de Montréal, HEC and Queen's University.

# How To Apply?

---

## Advanced Standing Applicant

---

Students applying from other Quebec Cégeps, private colleges, and other government-approved college level institutions must submit a student copy of their transcript when applying. Upon admission, their official marks will be obtained directly from the Ministry of Education and will be integrated into their Champlain College Saint-Lambert record. Not all courses will necessarily be integrated.

---

## Equivalence

---

Equivalences for courses taken at post-secondary institutions other than Quebec Cégeps, private colleges or other government approved college level institutions are considered on a course-by-course basis by the Academic Advisors. Credit will not automatically be given for years or full semesters of study. Champlain College Saint-Lambert does not normally grant equivalent credit for courses followed at the university level. No request for equivalent credit will be considered until the following documentation has been submitted:

- A detailed description of the course content
- An official transcript

---
